During the past three weeks, Summit County’s COVID-19 cases increased, along with several other healthcare indicators. During the past two weeks, Summit County had a total of 59 cases per 100,000 residents. From June 16 to June 30, the average new cases per day nearly tripled from 11 to 30. Due to clinical and reporting lags, these numbers may continue to grow for this reporting period. The community experienced early signs that more people are seeking medical care for COVID-19 symptoms. From June 16 to June 30, visits for COVID-19 to the emergency department increased from an average of 5.5 per day to 8.5. More people are also visiting their doctors and being diagnosed with COVID-19. Between June 16 and July 2, the average outpatient visits nearly tripled from 11 to 29 visits per day. Summit County currently has faith-based, workplace and long-term care facility outbreaks.
