WHAT TO DO IF YOU HAVE COVID-19
Regardless of Symptoms or Vaccination Status

• Stay home for the next five days regardless of symptoms or vaccination status.
• Stay away from other people as much as possible (including those in your own household).
• If you can't stay away from other people in your household, wear a three-layer (or better) mask.

• Do you have a fever or other symptoms that haven’t started to get better on day six?

**YES**
• Stay home until your fever is gone and other symptoms are better.*
• Wear a mask for the next five days.

**NO**
• Resume activities with a mask.
• Wear a mask for the next five days.

*Some symptoms, including loss of taste and smell, may persist for weeks or months after recovery. These lingering symptoms should not extend the isolation period.

If you are having symptoms of COVID-19 and waiting for your test results, stay home until you get your results.

WHAT TO DO IF YOU WERE EXPOSED TO SOMEONE WHO HAS COVID-19

And Your COVID-19 Vaccines Are Up-to-Date

You are considered up-to-date with your COVID-19 vaccines when you have received all doses in the primary series and all boosters recommended for you, when eligible. If you are up-to-date with your COVID-19 vaccines:

More information:

For 10 days

• Wear a mask around others for 10 days after your last exposure.
• Test on day five.
• If you develop symptoms or test positive, stay home.

If you tested positive for COVID-19 in the 90 days before your exposure.

• Wear a mask around others for 10 days.
• If you develop symptoms, get tested and stay home.

Thank you to Clark County Combined Health District for sharing its graphic with the Ohio Department of Health.

WHAT TO DO IF YOU WERE EXPOSED TO SOMEONE WHO HAS COVID-19

And You are Unvaccinated or Your Vaccines Are Not Up-to-Date

You are considered up-to-date with your COVID-19 vaccines when you have received all doses in the primary series and all boosters recommended for you, when eligible. If you are NOT up-to-date with your COVID-19 vaccines:

More information:

For 5 days

- Stay home for five days after your last exposure, then wear a mask around others for the next five days.
- Test on day five.
- If you develop symptoms or test positive, stay home.
