COVID-19 Quarantine and Isolation

Quarantine separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick.

Isolation separates sick people with a contagious disease from people who are not sick.

**Starting 2.18.21, we will report youth numbers based on those who are in quarantine for obligatory intake/pre-release purposes, or for those who are reasonably believed to have been exposed to COVID-19. Previously, when a facility was in red status, meaning at least one youth/staff member had tested positive for COVID-19, we counted the entire youth population in that facility as being in quarantine. For any questions, please contact Tony Gottschlich at 614-981-3063.**

**Starting September 7th**
