Ohio Phase 2B COVID-19 Vaccine Distribution

Governor Mike DeWine announced the individuals who are included in Phase 2B of Ohio's vaccination plan, which will begin on Thursday, March 11, 2021. Phase 2B will open with Ohioans ages 50 and older. This group includes approximately 1.2 million eligible Ohioans.

Phase 2B

Vaccinations for Phase 2B will begin on Thursday, March 11, extending age eligibility criteria to age 50 and older. Because the risk of more severe reactions and outcomes of COVID-19 increases with age, Phase 2B will open with vaccinations based on age, extending eligibility criteria to age 50 and older. This opens eligibility to approximately 1.2 million Ohioans. Eligible individuals can receive a vaccine from the provider of their choice.

AGE ELIGIBILITY

Individuals age 50 and older.

Individuals age 60 and older previously eligible under Phase 1B or Phase 2A who have not yet received the vaccine remain eligible under Phase 2B.
