RE: Recall Announcement (ODA/ODH) 2019-205

12/12/2019 – Because the original product recall posted by USDA on 11/21/2019 indicated the recalled products were shipped to distributors and retailers in Illinois, the recall was not posted and distributed for our public health partners and residents in the state of Ohio. On December 12, 2019 USDA released a list of retail locations believed to have received the recalled products. The list includes several retailers in Ohio and surrounding states, so the original recall is now being posted/distributed in Ohio with a list of retailers that received the products in Ohio and surrounding states.

The products subject to recall bear establishment number "EST. 18267" inside the USDA mark of inspection. These items were shipped to distributors and retail locations in Illinois.

The problem was discovered when FSIS received an anonymous tip that the firm was producing products without the benefit of inspection.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

FSIS is concerned that some product may be in consumers' refrigerators or freezers. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers and media with questions regarding the recall can contact Frank Masellis, President of Morris Meat Packing, at (708) 865-8566.
