RE: Recall Announcement (ODA/ODH) 2018-033

**Mickey Brown, Inc Recalls Beef Burrito Products Produced Without Benefit of Inspection**

**WASHINGTON, March 20, 2018** – Mickey Brown, Inc., a Houma, La. establishment, is recalling approximately 4,130 pounds of beef burrito products that were produced without the benefit of federal inspection, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced today.

The ready-to-eat beef burrito items were produced on various dates from March 28, 2017 through March 6, 2018. The following products are subject to recall: [[View Labels](#) (PDF Only)]

- 1-lb. 2-oz. plastic packages containing "Mickey Brown's A Taste of Cajun 3 Beef Burritos."

The products subject to recall bear establishment number "EST. 33915" inside the USDA mark of inspection. The products are labeled with "Keep Refrigerated" but may be frozen. The products are not labeled with a "best by" or "use by" date. These items were shipped to distributors in Louisiana, which then distributed the product for further retail and internet sales.

The problem was discovered by FSIS during routine inspection activities.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about a reaction should contact a healthcare provider.

Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution lists will be posted on the FSIS website at [www.fsis.usda.gov/recalls](http://www.fsis.usda.gov/recalls).

Consumers and members of the media with questions about the recall can contact Marshall Brown III, Owner, Mickey Brown, Inc., at (985) 856-3883.
