

SPM 2 - Percent of children 0-12 years with a preventive medical visit in the past 12 months

Measure Status:	Active
------------------------	---------------

State Provided Data	
	2016
Annual Objective	
Annual Indicator	87.7
Numerator	
Denominator	
Data Source	NSCH
Data Source Year	2011-12
Provisional or Final ?	Final

Annual Objectives						
	2017	2018	2019	2020	2021	2022
Annual Objective	90.0	90.3	90.5	90.8	91.0	92.0

Field Level Notes for Form 10a SPMs:

1.	Field Name:	2016
	Column Name:	State Provided Data
	Field Note: From the 2011-12 NSCH, 87.7% of Ohio children 0 to 12 years, and 84.4% (95% CI 83.8-84.9) of children nationwide received one or more preventive medical care visits during the past 12 months. Ohio is doing well on this measure and is above the nation as a whole. Since we are currently at about 90% of children receiving visits in the last 12 months, we expect improvements to be small. Additionally, we are focusing on quality of preventative medical care versus number of visits.	
2.	Field Name:	2017
	Column Name:	Annual Objective
	Field Note: No updates are being made to the objectives at this time. We will review these objectives when data from the revised NSCH become available.
