RE: Recall Announcement (ODA/ODH) 2018-080

Hormel Foods Corporation Recalls Canned Pork and Chicken Products due to Possible Foreign Matter Contamination

WASHINGTON, May 26, 2018 – Hormel Food Corp., a Fremont, NE establishment, is recalling approximately 228,614 pounds of canned pork and chicken products that may be contaminated with foreign matter, specifically pieces of metal, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced today.

The canned pork and chicken products were produced on February 8 through February 10, 2018. The following products are subject to recall: [[View Labels](#) (PDF only)]

- 12-oz. metal cans containing "SPAM Classic" with a "Best By" February 2021 date and production codes: F020881, F020882, F020883, F020884, F020885, F020886, F020887, F020888 and F020889. These products were shipped throughout the United States.
- 12-oz. metal cans containing "Hormel Foods Black-Label Luncheon Loaf" with a "Best By" February 2021 date and production codes F02098 and F02108. These products were shipped to Guam only.

The products subject to recall bear establishment number "EST. 199N" on the bottom of the can. These items were shipped throughout the United States and to Guam.

The problem was discovered after the firm received four consumer complaints stating that metal objects were found in the canned products. FSIS was notified on May 25, 2018.

There have been reports of minor oral injuries associated with consumption of the products. FSIS has received no additional reports of injury or illness from consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider.

FSIS is concerned that some product may be in consumers' food pantries. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers with questions about the recall can contact Consumer Response, Hormel Foods, at (800) 523-4635. Members of the media with questions about the recall can contact Hormel Foods Media Relations, at (507) 437-5345.
