

STS Contractor Bond Cancellation Notice List

Ohio Administrative Code (O.A.C.) 3701-29-03 (C)(6)(d) requires that if the surety bond or financial assurance for the registration is canceled, the registrant shall immediately submit to each board of health where a registration has been issued proof of a new surety bond or financial assurance in accordance with the requirements of this rule. The surety company or guarantor of the financial assurance shall give ninety days written notice to the director of health prior to the effective date of cancellation. In the event that a surety bond or financial assurance is canceled and the registrant does not submit proof of a new bond or financial assurance to the board of health, the registration shall be suspended and the registrant shall cease from performing the duties of a registered contractor.

When ODH receives notice that an STS Contractor Bond is to be cancelled, that information will be posted here. If the bond is later reinstated, the company will be removed from the Cancellation Notice List. If there are any questions, please contact the Sewage Treatment Systems Program at 614-644-7551.
