Several at-home learning options are available for pre-K through 12th grade students and adults during the COVID-19 pandemic.

Some options:

- **PBS stations.**
  - Ohio’s PBS stations have developed a new on-air schedule of at-home programming for students and teachers. This will make resources available to homes that have limited internet access.
  - The Ohio “At Home Learning” initiative includes a full schedule of daily television programming geared toward students in prekindergarten through 12th grade.
  - This programming will be available on Ohio PBS television stations across the state starting in most areas on Monday, March 30, 2020.
  - More information about this programming — including teacher resources — is available at pbslearningmedia.org.

- **CoderZ.**
  - Amazon Future Engineer is offering free online virtual robotics and coding courses for primary, middle, and high school students and teachers affected by school closures due to COVID-19.
  - Through the program, students and teachers can program their own virtual robots.
  - Teachers can sign up to give access to their students or students can sign up on their own at GoCoderZ.com/amazon-future-engineer.

- **CompTIA.**
  - The tech association is offering a free 30-day license in its IT Fundamentals course, a great way for students to learn if they want to pursue a career in IT.
  - Learn more at https://www.comptia.org.

- **CodeAcademy.**
  - The online provider of coding classes is offering 10,000 full scholarships to CodeAcademy
