Web Plus Training Manual

for Out-Patient Facility Reporting

Version 1.1; February 7, 2014

Contents

Chapter 1: Introduction
Chapter 2: Logging In and Web Plus Basics
Chapter 3: New Abstract
Chapter 4: Abstracting a Case
Chapter 5: Correcting Errors
Chapter 6: Release Abstracts
Chapter 7: Find/Open Abstract
Chapter 8: Reports
Chapter 9: Other Functionalities

Revision History

Version	Date	Updated By	Comment
1.1	02/07/2014	Lynn Giljahn	Chapter 1, clarified that Web Plus can be used for reporting cancer cases diagnosed in out-patient settings (ambulatory surgery, radiation therapy, laboratory) on or after January 1, 2012. Chapter 4, updated to reflect new reporting requirement for Place of Birth and clarified entry of Staging Information. Chapter 9, corrected typographical error.

Chapter 1: Introduction

Web Plus Features

Web Plus is a web-based application that collects cancer data securely over the public Internet. Web Plus supports three main functions; online abstracting for cancer cases diagnosed on or after January 1, 2012 (which is addressed in this training manual for cases diagnosed in out-patient settings such as ambulatory surgery and radiation therapy centers and by laboratories), file upload/download, and follow-back efforts. The online abstracting capability of Web Plus is ideal for reporting from low-volume reporting sources while the file upload feature can be used for data submission from reporting sources that can generate an electronic file in a NAACCR file format. All records are saved in a database at the Ohio Cancer Incidence Surveillance System (OCISS) and cases entered by one facility are not visible to other facilities.

Requirements for Web Access

Web Plus requires Microsoft Internet Explorer version 5.0 or later or a Mozilla browser to operate the system fully. Although Web Plus may work at 800 X 600 resolution, you may have trouble with some features; it can be best viewed at 1024 X 768 or higher resolution. It is highly recommended that you change your resolution to 1024 X 768 or higher when using the Web Plus application.

Chapter 2: Logging In and Web Plus Basics

Log in to Web Plus, <https://odhgateway.odh.ohio.gov/webplus/logonen.aspx>.

The Web Plus log in page opens.

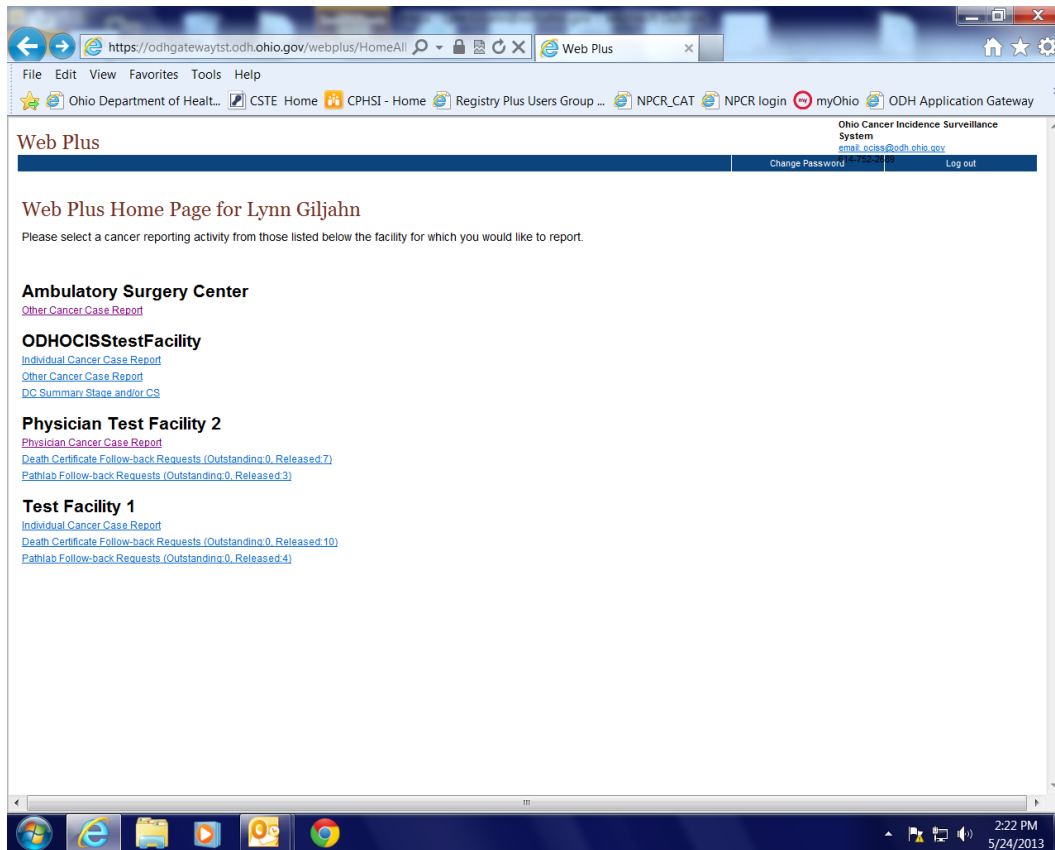

Go to Favorites on your web browser to add this link for future access.

Type in the **User ID** and **Password** provided to you by OCISS.

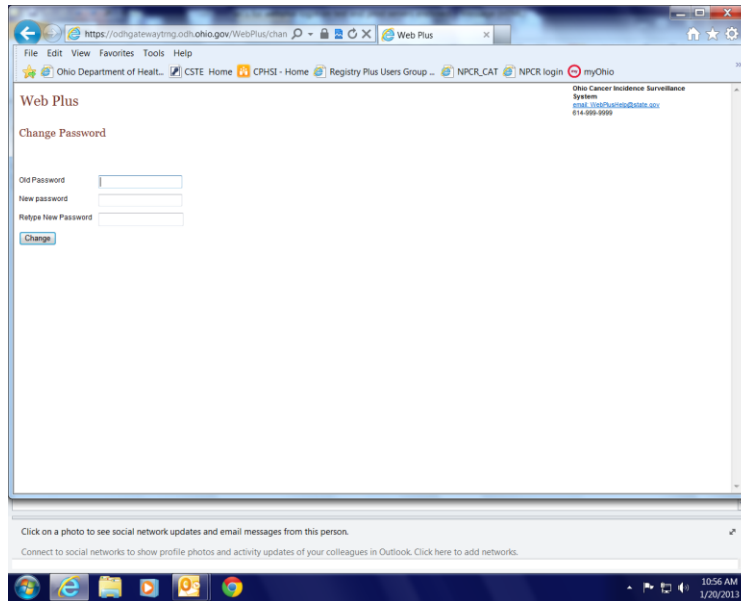

Click **Log in**.

The Web Plus **Home Page** opens, with a list of links to the facilities and roles that have been assigned to you.

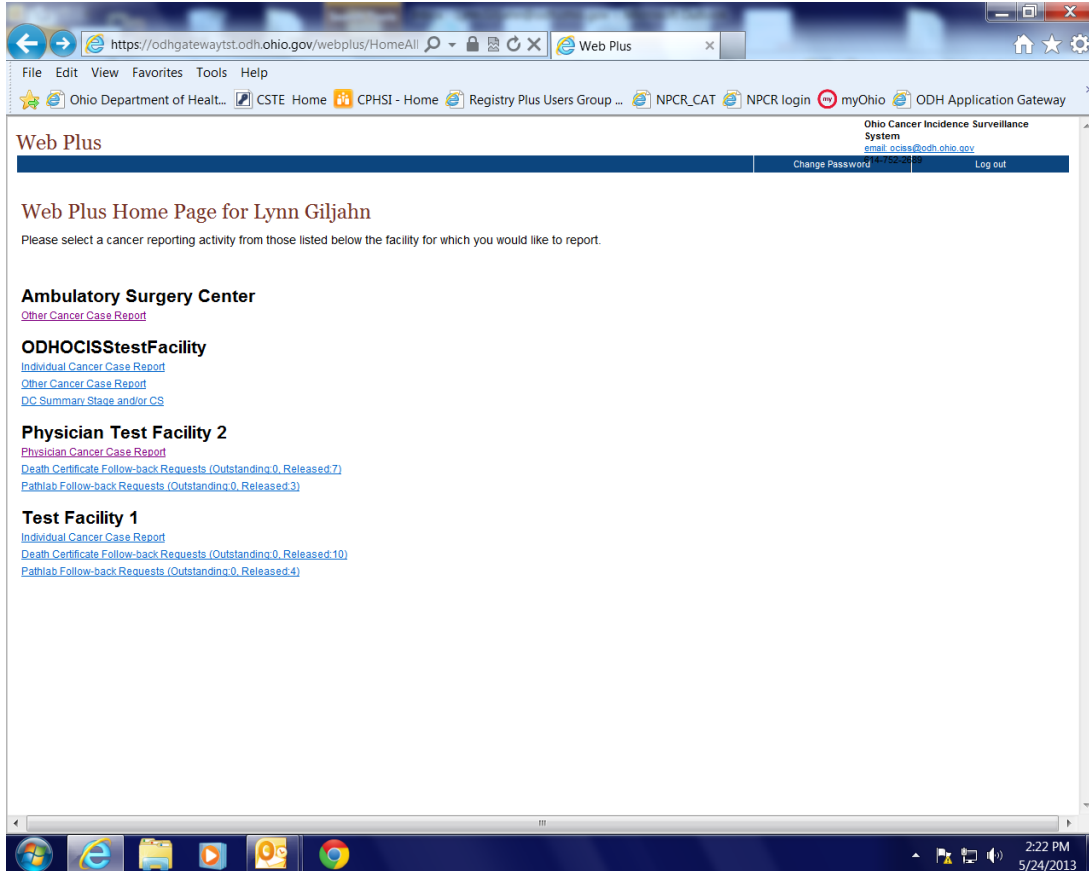

If this is your first time signing into Web Plus you will be prompted to change your password. Passwords must be 8-20 characters long and contain at least one number. Special characters (\$, #, !) are not accepted.

- Click **Change Password** on the menu bar.

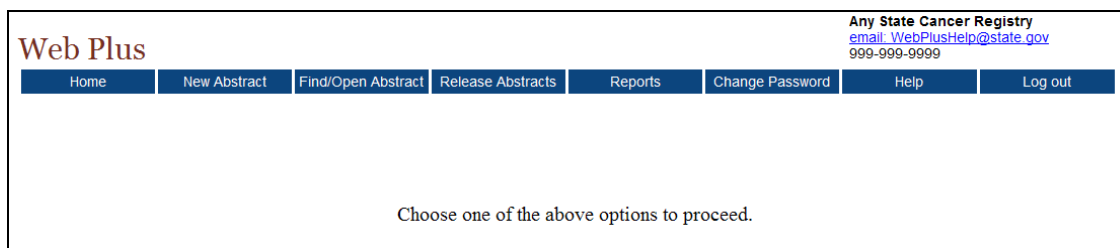

- Type your current password in the **Old Password** field.
- Type your new password in both of the **New Password** fields.
- Click **Change**.
- Your password is successfully changed!

Click the **Other Cancer Case Report** link.

The Web Plus **Menu** is displayed. Click on an option to open the page for that option.

The table below describes the menu options.

Menu option	Description
Home	Opens the user's home page, which displays a list of links for the facilities and roles that have been assigned to you; to work on abstracts of a particular source, click on the link for the type of abstract
New Abstract	Opens the data entry page for a new abstract
Find/Open Abstract	Opens the page to search for existing abstracts
Release Abstracts	Opens the page that lists all abstracts that are completed and ready for release
Reports	Opens the page that lists the reports available for viewing
Change Password	Opens the change password page
Help	Opens a page with the Web Plus, NAACCR, and Collaborative Staging Algorithm Version information
Log out	Logs the user out of Web Plus; opens Web Plus Log in page

Chapter 3: New Abstract

Log in to Web Plus, as described in Chapter 2.

Click the **Other Cancer Case Report** link.

Click **New Abstract**.

The data entry page opens.

The data entry page has two main sections. The box on the left contains the fields where you enter your case information. The box on the right contains two tabs: **Help** and **Edit Errors**.

Data entry Help Icons

Edit Errors **Help**

Run only Collaborative Staging edits to check CS input fields and determine site-specific factor requirements.

Enter an Abstract and click on Save at the bottom of the page to save it to the database. The abstract is edited each time you save. Edit errors, if there are any, will be shown in this message area. All your changes will be saved to the database even if there are edit errors.

Special Code Lookup icon to the left of the data item links to a searchable listing of terms and coded values for the data item. When a specific code in the list is clicked, it is automatically filled into the abstract for the data item.

Calculate Field Value icon to the left of a data item is clicked to automatically calculate the value for the data item from information that has been entered for other data items.

Context-Sensitive Help icon to the right of each data item links to the NAACCR Standards for Cancer Registries Volume II: Data Standards and Data Dictionary for information regarding the coding of the data item.

Print Preview

Save Click to save the abstract and run data Edits. See the box to the right for Edits results each time the abstract is saved.

Note that only one data item (**Reporting Source Type**) is marked with an asterisk to indicate it is required. OCISS has incorporated an edit set into Web Plus that addresses all other required data items and data input errors. Information on OCISS edits is on the OCISS website.

The box on the left where you enter case information has several data entry **Help Icons** to make the data entry process easier.

Icon	Description	Click the icon to . . .
	Special Lookups	open a listing of codes and terms to choose from. Find the term that best applies, and click on the code to the left of the term. When a specific code is clicked, it is automatically filled into the abstract for the data item.
	Calculate Field Value	calculate a value for a field from values in other fields.
	Context-sensitive Help	open Help page with the <i>NAACCR Standards for Cancer Registries Volume II: Data Standards and Data Dictionary</i> for information about the data item.
	Print Preview	open page that shows all of the fields and the content you have entered in your abstract; this page allows you to print a copy of your abstract.

This information is described in the box on the right on the **Help** tab.

Although not described in the **Help** tab, drop-down lists are also available for selected fields to make the data entry process easier. These are indicated by a **Down Arrow**.

The **Edit Errors** tab in the box on the right will be used to identify errors that must be corrected before you can complete and release an abstract.

Tab	Description
Help	This area describes the saving and editing of an abstract and provides a description of the data entry help icons available to the abstractor.
Edit Errors	This area lists any errors that may exist in an abstract after you have opened or saved the abstract. This editing feature helps you correct the abstract until it meets the standards acceptable to the central registry.

Chapter 4: Abstracting a Case

Patient Information/General/Demographics/Environment

Type the **Last Name** in the field, and press **Enter**. Note that Web Plus automatically capitalizes the entered text.

The next field is now highlighted. You will sometimes see a pop-up box that gives a short hint on what needs to be entered in the field.

All data items marked with an asterisk (*) are required.

Abstractor	JD	?
PATIENT IDENTIFICATION		
Last Name	JOHNSON	?
First Name		?

Social Security Number can be entered as a string of 9 digits (123456789) or with dashes (123-45-6789). The dashes will be removed when the record is saved.

Date of Birth (and all other date fields) needs to be entered in the YYYYMMDD format. As of the NAACCR version 12 record layout, all dates are in the YYYYMMDD format. Because the NAACCR standards are so tightly integrated with Web Plus, dates are entered in the YYYYMMDD format.

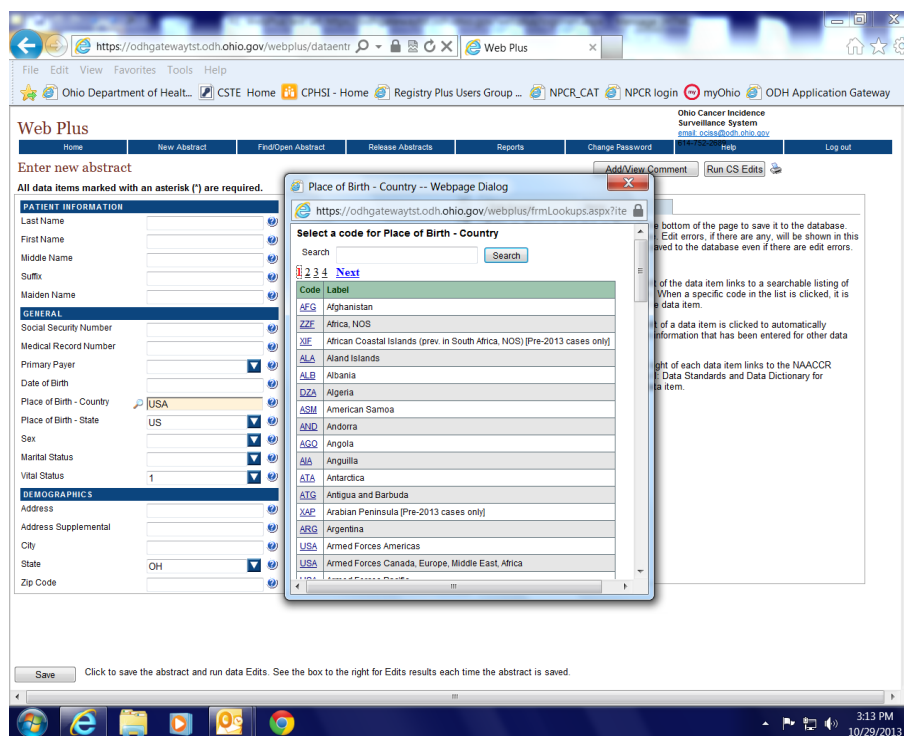

Enter dates in the new YYYYMMDD format as follows:

- YYYYMMDD – when complete date is known and valid
- YYYYMM – when year and month are known and valid, and day is unknown
- YYYY – when year is known and valid, and month and day are unknown
- Blank – when no known date applies
- A date flag field is filled out for each date field which is “**unknown**” or “**not applicable**” explaining why the corresponding date field is blank. The **date flag field** is left blank if a **valid date** is transmitted in its associated date item.

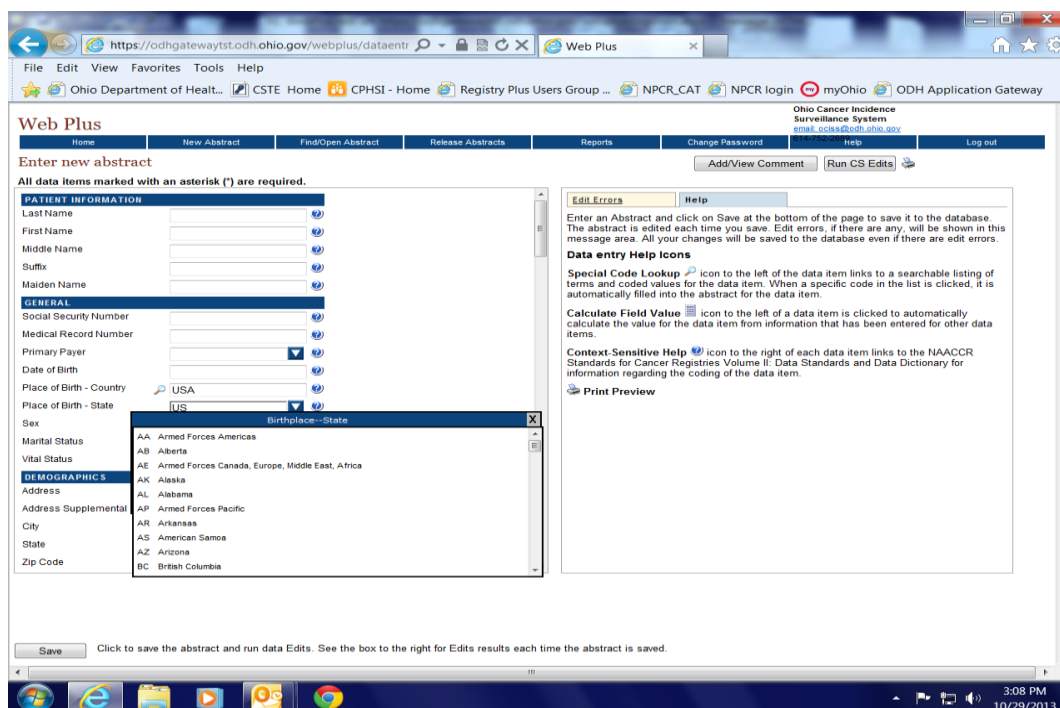

The **Place of Birth-Country** field will default to USA for United States. If this is not the person’s place of birth, you can click on the **Special Lookups Icon** to the left of the **Place of Birth-Country** data field to search for the correct country. There are several ways to do this:

- You can enter either part or the entire country name in the search box and click on Search.
- You can enter part or all of the three-letter abbreviation in the search box and click on Search.
- You can scroll through the list.

Click on the correct **Country** code, and press **Enter**.

The **Place of Birth-State** field will default to US for United States, NOS (Not Otherwise Specified). If the person was born in the United States and you know the person's **State of Birth**, you can either type the two-letter state abbreviation or click on the down arrow to display a drop-down list. Scroll down and **select** the value of the correct state by clicking on it.

The **Vital Status** field will default to 1 for Alive. Please change if this is incorrect as of the date entered in **Date of Last Contact**.

The **State** field will default to OH for Ohio. If the case is from a state other than Ohio, you can either type the two-letter state abbreviation or click on the down arrow to display a drop-down list. Scroll down and **select** the value of the correct state by **clicking** on it.

When you complete this and all other sections, it is recommended that you save your work by clicking on the **Save** button. If you do not save often enough, you may get logged out of Web Plus and will lose the work you have done.

When you click on **Save**, notice that the **Edit Errors** tab in the box on the right will automatically open and display errors. Disregard these edits for now because some are for data that you have not yet entered.

Diagnostic Information/Diagnostic Procedures

DIAGNOSTIC PROCEDURES

Click to save the abstract and run data Edits. See the box to the right for Edits results each time the abstract is saved.

Help

Enter an Abstract and click on Save at the bottom of the page to save it to the database. The abstract is edited each time you save. Edit errors, if there are any, will be shown in this message area. All your changes will be saved to the database even if there are edit errors.

Data entry Help Icons

Special Code Lookup ⓘ icon to the left of the data item links to a searchable listing of terms and coded values for the data item. When a specific code in the list is clicked, it is automatically filled into the abstract for the data item.

Calculate Field Value ⓘ icon to the left of a data item is clicked to automatically calculate the value for the data item from information that has been entered for other data items.

Context-Sensitive Help ⓘ icon to the right of each data item links to the NAACCR Standards for Cancer Registries Volume II: Data Standards and Data Dictionary for information regarding the coding of the data item.

As noted above, date fields need to be entered in the YYYYMMDD format.

After entering **Date of Diagnosis**, you can click on the **Calculate Field Value Icon** to the left of the **Age at Diagnosis** data field. **Age at Diagnosis** will be calculated and will automatically fill in.

As noted above, you can enter data directly or use the **Help Icons** to assist in your completion of the data fields.

If you enter **Primary Site Code** instead of using the **Special Lookups Icon**, you will need to enter the 'C' in addition to the number.

The **Sequence Number** field will default to 00 to indicate this is the first malignant tumor for this person. If this is not the person's first malignant tumor, delete the 00 and enter the correct number.

Text fields are required. Please make sure to enter information in these fields.

Click **Save**.

Treatment Information

Continue data entry, as noted above. Note that text fields are required.

If you report that the case had a certain treatment, you will be required to complete all associated data fields, including text fields. When there is both a **Date** and a **Date Flag** field, you will need to enter into one of these fields.

You must record information for all treatment modalities for cancers of the breast, colon and rectum. You must record information for surgery and radiation for all other cancers.

If you report that a case did not have a certain treatment, you can bypass subsequent data fields pertaining to that treatment.

The **Surgical Margins** field will default to 9 for Unknown or not applicable. Please change if this is incorrect.

Click **Save**.

2:37 PM 5/28/2013

- 1) Enter **SEER Summary Stage** and **Staging Text**.
- 2) Click on the **Special Lookups Icon** for **CS Tumor Size**. This will default all **Site-Specific Factors** to a value of 988. Additionally, the fields of **CS Version Input Current** and **CS Version Input Original** will auto-populate.
- 3) Enter **CS Tumor Size** and **CS Extension**.
- 4) **MAKE NO EDITS** to the **Site-Specific Factor** fields.
- 5) Click the **Run CS Edits** button located in the upper right-hand corner of the data entry page.
- 6) View the errors on the **Edit Errors** tab. The **Edit Errors** will indicate which of the **Site-Specific Factor** fields need to be revised from the defaulted value of 988 to a more specific value. The **Edit Errors** will also indicate any other Collaborative Stage fields that are in error and need to be corrected.

- 7) Click on the link for each error. The application will take you to the data entry field so that you can correct the error. Enter the correct value to resolve the edit error.

- 8) When you have corrected all Collaborative Stage errors, you will get a message that says **"This abstract passed all CS edits."**

- 9) Click **SAVE**.

Physicians/Reporting Source Information/Abstractor

Continue data entry, as noted above, using Web Plus Help as needed.

Note that **Reporting Source Type** is marked with an asterisk and is a required field.

Notice that the **Reporting Facility** and **Abstracted By** fields are pre-filled.

This page is for testing display types and edits only. Close this window after you are done testing.
The Submit button will only run edits but not save the abstract.

Enter new abstract

Edit Over-Ride Flags

Do not enter anything here at this time. You will only need to enter information here if you have **Edit Errors** to resolve.

Click SAVE. You are now ready to proceed to resolving Edit Errors.

Chapter 5: Correcting Errors

Each abstract is edited for data quality and completeness whenever you save or open it. Abstractors must correct all identified errors before it can be released to OCISS.

View the **Edit Errors** tab in the box on the right of the abstracting screen.

In the **Edit Errors** list, click on a link. The application will take you to the data entry field so that you can correct the error. Enter the correct value to resolve the edit error.

Save the abstract. The application re-runs the edits. The resolved error is removed from the **Edit Error** list.

Note that some **Edit Errors** are inter-related. It is important to read through the errors before correcting any data fields. Correcting one major error may resolve many of the others.

Continue this process to resolve all **Edit Errors**. The **Edit Error** screen will indicate when you are finished and ready to release the abstract.

Note: Information on OCISS edits is on the OCISS website.

Chapter 6: Release Abstracts

Once you have resolved all **Edit Errors**, Web Plus lets you know that the abstract is error free and ready for release to OCISS.

Your selected abstracts have been released to the central registry. Thank you!

Note that you will not be able to revise an abstract after it has been released. You can view released abstracts by going to the **Find/Open Abstract** Web Plus menu item.

Chapter 7: Find/Open Abstract

On the Web Plus menu, click **Find/Open Abstract**.

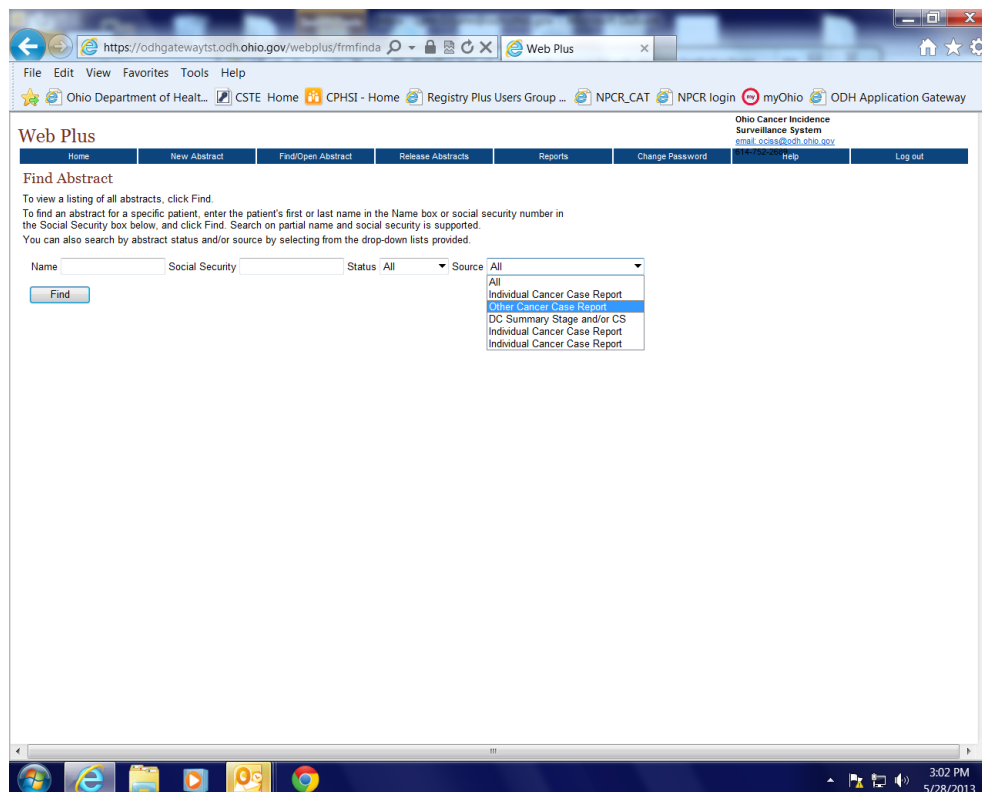

The **Find Abstract** window opens.

A screenshot of the 'Find Abstract' search form. The form has a title 'Find Abstract' in red. Below the title, there is instructional text: 'To view a listing of all abstracts, click Find. To find an abstract for a specific patient, enter the patient's first or last name in the Name box or social security number in the Social Security box below, and click Find. Search on partial name and social security is supported. You can also search by abstract status and/or source by selecting from the drop-down lists provided.' Below the text, there are four input fields: 'Name' (text box), 'Social Security' (text box), 'Status' (drop-down menu with 'All' selected), and 'Source' (drop-down menu with 'All' selected). At the bottom left of the form is a 'Find' button.

The **Find Abstract** page is searchable by patient name, social security number, abstract status, and/or abstract source. You can search on partial name or social security number.

Select **Other Cancer Case Report** from the **Source** pull-down menu, and click **Find**.

A list of all abstracts that were abstracted under the **Other Cancer Case Report** link opens.

The list of abstracts contains the information below:

Column	Description
Actions	You have the option to open or delete an abstract
AbsRefID	A system-generated number identifying the abstract
Last Name	Last name of patient
First Name	First name of patient
DxDate	Diagnosis date
Social Security	Patient's social security number
Birth Date	Patient's date of birth
Primary Site	The location of the major tumor
Laterality	Code for the side of a paired organ, or the side of the body on which the reportable tumor originated
Abstractor	Code for the person who created the abstract

Column	Description
Edit Errors	The number of errors found in the edit process after an abstract has been saved
Status	Web Plus has three types of statuses: <ul style="list-style-type: none"> • Incomplete (not all data have been entered) • Complete (all errors have been addressed) • Released (sent to the central registry)
Source	The type of Web Plus abstract; this is the name of the link that you clicked on your home page

You can use the **Find/Open Abstract** functionality for a variety of purposes – to see if you’ve previously reported a cancer case, to identify abstracts that were started but not completed, and to delete abstracts.

To **Open** an abstract, follow these steps.

Under the **Action** column, click on **Open**. The Data Entry page opens and displays the previously entered data for the abstract. Continue the abstraction process, run and correct edits, and then release to OCISS.

To **Delete** an abstract, follow these steps.

Under the **Action** column, click on **Delete**. Be sure to note the **Abstract Reference ID** (AbsRefID) number.

The **Confirm Delete** window opens. It displays the Abstract Reference ID number of the abstract you just selected for deletion. This allows you to verify that you have the correct record.

The image shows a 'Confirm Delete' dialog box with a light orange background. At the top, the title 'Confirm Delete' is in a dark red font. Below the title, the text 'Abstract Reference ID to delete' is followed by a text input field containing the number '205'. At the bottom of the dialog, there are two buttons: 'Delete' and 'Cancel'. A mouse cursor is pointing at the 'Delete' button.

Click **Delete**.

The **Confirm Delete** window confirms the deletion. Click **Close** to close the **Confirm Delete** window.

The image shows a 'Confirm Delete' dialog box with a light orange background. At the top, the title 'Confirm Delete' is in a dark red font. Below the title, the text 'Abstract Reference ID to delete' is followed by a text input field containing the number '205'. Underneath the input field are two buttons: 'Delete' and 'Close'. A mouse cursor is pointing at the 'Close' button. At the bottom of the dialog, a message states: 'Abstract Reference ID (AbsRefID) =205 has been deleted. The list will be refreshed when you rerun the query.'

You can confirm the deletion in the **Find Abstract** window.

Chapter 8: Reports

Web Plus provides reports for monitoring abstract reporting and system activity. You can view and print several types of reports.

Click **Reports**.

Web Plus displays a list of reports available to you.

The table below describes reports that are available for viewing by a Web Plus abstractor.

This report . . .	Lists . . .
Local Reports	
Abstracts Submitted Sorted by Abstractor	all abstracts that a facility has released within a given time period. The abstracts are sorted first by the name of the abstractor and then by patient name.
Abstracts Accessed Sorted by Patient Name	all abstracts that a facility has accessed within a given time period sorted by patient name.
Descriptive Statistics on Released Abstracts	descriptive statistics on released abstracts such as demographics and site group.
Activity Report	the number of released and unreleased abstracts for each month of the selected date range.
Facility Outstanding DCO Abstract Listing Report	a line listing of all death certificate follow-back abstracts assigned to your facility that have not yet been released to the central registry. <i>OCISS is not yet using this functionality.</i>

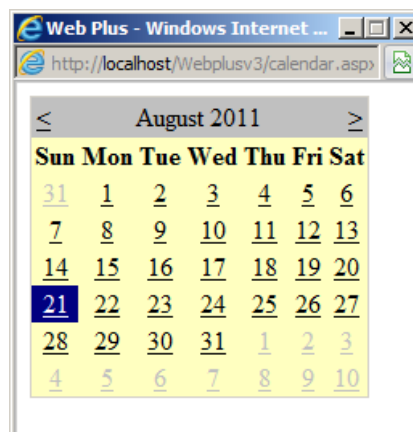

This report . . .	Lists . . .
Facility Outstanding Pathology Abstract Listing Report	a line listing of all pathology laboratory follow-back abstracts assigned to your facility that have not yet been released to the central registry. <i>OCISS is not yet using this functionality.</i>
HIPAA Accounting of Disclosure report	a user-generated report of information disclosure (via abstracts) to your central registry using Web Plus.
Audit Reports	
System Logins	the users from your facility and their times for logging in and out of Web Plus within a selected date range.
Abstract Updates	the dates and times that abstracts from your facility have been updated.
Abstract Searches	the abstractor and the date and time for all searches for abstracts at your facility.
Abstract Deletions	the dates and times that abstracts have been deleted at your facility.
Abstract Releases	information about abstracts released from your facility including release time and date and abstractor.

All reports have similar functionality.

Click on the name of the report you want to run.

Set a **date range** for the report. You can enter a date using the MMDDYYYY format or click on the Calendar to the right of each date field to open a calendar.

From:  To: 

After you make your selections, the report may be generated. Some reports have a **Run** button that you will need to click on to generate the report.

Click on the **Printable Report** link to view a 'clean' report that has removed the selection choices, and instead, includes that information in the report title. Note that all reports have a date and time stamp in the top left corner that indicates when the report was run.

Print the report using your browser's printer. You may want to modify how the report prints using the Page Setup options on your computer.

Abstracts Submitted Sorted by Abstractor Report

The Abstracts Submitted Sorted by Abstractor report provides the history of the abstract: when it was created, completed, and submitted to the central registry.

The report contains the following information. The abstracts are grouped by abstractor.

Column	Description
Patient Name	Name of patient on abstract
Social Security #	Patient's social security number
Medical Record #	Patient's medical record number
Birth Date	Patient's birth date
Diagnosis Date	Diagnosis date of the tumor being reported
Primary Site	ICD-O-3 topography code for the primary site of the tumor being reported

Column	Description
Laterality	Laterality code for the tumor being reported
Behavior	ICD-O-3 behavior code for the tumor being reported
Grade	ICD-O-3 grade/differentiation code for the tumor being reported
Date Created	Date the abstract was created
Date Completed	Date the abstract was completed, with the lag time (in days) between date of creation and completion in parentheses
Date Released	Date the abstract was released to the central registry, with the lag time (in days) between date of completion and release in parentheses

DeKalb County	1(12.5%)
Unknown County	1(12.5%)
Out of State	0(0%)
Total	8(100%)

Zip Code of Residence

Zip Code	Count of cases (%)
99999	7(87.5%)
999999999	1(12.5%)
Total	8(100%)

The report contains the information below:

Grouping Variable(s)	Groupings by...								
County of Residence	individual county of residence at diagnosis								
Zip Code of Residence	individual zip code of residence at diagnosis								
Sex and Race	patient sex (male/female) by race (white/black/other)								
Age Group	ten age groups (0-9, 10-19,...90+)								
Site Group	three levels of primary site grouping: <table border="1"> <tr> <th>Grouping Level</th><th>Description</th></tr> <tr> <td>Aggregate</td><td>18 categories</td></tr> <tr> <td>Subaggregate</td><td>60 categories</td></tr> <tr> <td>Recode</td><td>78 groups</td></tr> </table>	Grouping Level	Description	Aggregate	18 categories	Subaggregate	60 categories	Recode	78 groups
Grouping Level	Description								
Aggregate	18 categories								
Subaggregate	60 categories								
Recode	78 groups								
Treatment Group	type of summary treatment (RX Summ) recorded: Surgery of Primary Site Chemotherapy Hormone BRM Other Rad-Regional RX Modality Transplant/Endocrine								

The following options are available to modify the **Descriptive Statistics on Released Abstracts** report:

Option	Description
Date Range	Includes only those abstracts that were released within the specified date range
Select all released	When clicked, all abstracts released by the facility will be included, regardless of date released
Select Level of Site Group Detail	Specifies what level of primary site grouping to use for the report; the default grouping is 18 categories

Option	Description
Include site groups with no cases	<p>When Yes is clicked, the primary site distribution will show all site groups for the level of detail chosen, whether or not abstracts were released containing each of the site groups</p> <p>When No is clicked, only those primary site groups contained in the released abstracts released will appear on the report</p>
Group by managing physician	When Yes is clicked, the records in the report will be grouped into sections by managing physician, displaying the descriptive statistics for abstracts released by each managing physician

Activity Report

The Activity report provides information on the abstracting activity at your facility, in terms of the number of released and unreleased abstracts.

[Printable Report](#)

Group by managing physician? ☐ Yes ☒ No

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
Released	0	0	0	0	0	0	0	0	11	0	0	0	11
Unreleased	0	0	0	0	0	0	0	0	10	0	0	0	10
Total	0	0	0	0	0	0	0	0	21	0	0	0	21

Note that if you change the date range to span more than one year, the report will display the number of released and unreleased cases for each year rather than each month.

HIPAA Accounting of Disclosure Report

When a physician or hospital submits information to a central cancer registry, an accounting of disclosures of protected health information is required. The Web Plus HIPAA Accounting of Disclosure Report is a report that includes the date of the disclosure, the name and address of the central cancer registry (entity who received the protected health information), a brief description of the protected health information disclosed, and a brief statement of the purpose of the disclosure. The HIPAA Accounting of Disclosure Report can be generated for all released abstracts as well as for individual released abstracts.

Chapter 9: Other Functionalities

Add/View Comment

It may be helpful to save notes while you are in the process of abstracting. Comments may be added and the information can be viewed and updated until the abstract is released. To add a comment to an abstract, complete these steps:

Click on **Add/View Comment** in the upper right-hand corner of the page.

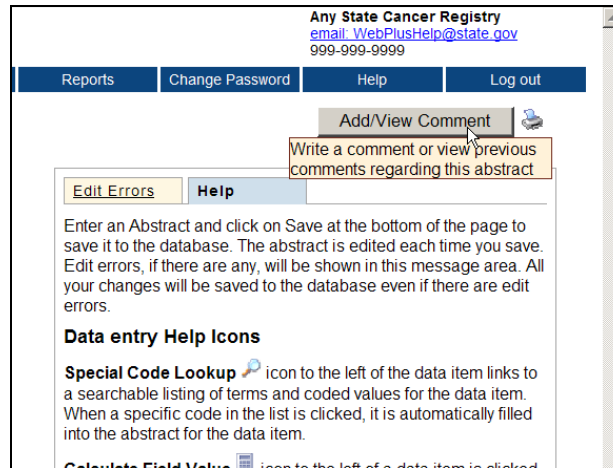

Enter your comments and click **Save**.

The comments are available for viewing until you complete and release the abstract. This information is for your use only and will **NOT** be seen by OCISS.

Print Preview

The Print Preview feature allows you to view all of the fields and the content you have entered in your abstract. You can also print a copy of the abstract from the Print Preview window. To view or print an abstract, complete these steps:

Click on the **Print Preview Icon** in the upper right-hand corner of the page.

A separate window opens that displays all of your abstract entry fields and content.

To print a copy of the abstract, use your browser's printer.

How To Contact OCISS?
