

Form 10a
National Performance Measures (NPMs)
State: Ohio

NPM 1 - Percent of women with a past year preventive medical visit

Federally Available Data	
Data Source: Behavioral Risk Factor Surveillance System (BRFSS)	
	2016
Annual Objective	65
Annual Indicator	67.4
Numerator	1,305,840
Denominator	1,936,363
Data Source	BRFSS
Data Source Year	2015

Annual Objectives						
	2017	2018	2019	2020	2021	2022
Annual Objective	68.3	71.7	75.2	75.6	76.0	76.4

Field Level Notes for Form 10a NPMs:

1.	Field Name:	2017
	Column Name:	Annual Objective

Field Note:

We've exceeded our 2016 objective. At this time, we have not changed our objectives for 2017 through 2022. We attribute most of the increase we've seen to an increase in health care coverage, especially due to the expansion of Medicaid. Due to the uncertainty of federal legislation regarding health care coverage, we are not sure we will see the same gains. For 2020-2022, we have reduced the rate of increase to about a 0.5% increase per year. We expect a slower rate of increase as we get close to 80% of women receiving preventive medical care.
