Although healthy persons may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, **Listeria** infection can cause miscarriages and stillbirths among pregnant women.

The contamination was discovered after sampling by New York State Department of Agriculture and Market Food Inspectors and subsequent analysis by Food Laboratory personnel revealed the presence of ***Listeria monocytogenes*** in 7.05 oz vacuum packages of "CAPITAN K" salmon slightly salted pieces.

Consumers who have purchased 7.05 oz vacuum packages of "CAPITAN K" salmon slightly salted pieces are urged to return them to the place of purchase for a full refund. Consumers with questions may contact the company at 718-768-3400.
